(Year: 2006) Description: 2006 International 4200 26-foot moving van, 107,000 miles—I bought this in July 2021 and have since improved it much! It now is in near perfect condition—ready for use. The truck has 107,000 miles with a Jasper-remanufactured, 6-liter, turbocharged, Diesel engine with approximately 1000 miles since replacement! The new engine runs perfectly as does the truck. All the cab & van doors function perfectly. The van body & cab have no leaks even after a long, heavy rain. The van has the E-track system and has a total volume of 2089 cubic feet = 59.15 cubic meters. It has a 6-speed, manual transmission—no slippage or erratic shifting as with automatics! All 6 tires have 90% or more tread. The HVAC system operates perfectly; there is no freon leakage! AM-FM stereo with a weather band—the CD player doesn't work well. Other features: tilt steering wheel; pneumatic driver's seat; power, ABS, 4-wheel disc brakes; display of odometer, tripometer, chronometer (total hours), fuel mileage (11 MPG hiway); cruise control; heated rear-view mirrors; original International engine guide and owner's guide! Recent replacements/additions/improvements: ball joints; all 4 brake rotor discs; shoes; 1 U-joint; LED taillights; LED marker lights (15 total); LED strip luminaires to the van's interior including an LED luminaire outside the back doors; LEDs in cab's interior; 2-inch trailer hitch receiver and 7-pin type electrical jack which includes back-up-light supply; LED fog lights of which, as the van's interior illumination, are controlled by 2 illuminated dash-mounted switches; gauges: inside & outside temperature, ammeter, and clock; LED cab dome luminaires; 2 cigar-lighter-style, 12-volt/20-amp power outlets; Also, there is a 20-amp banana-plug jack power outlet.; CB radio with PA speaker and concealed antenna cable; 55-gallon, aluminum

fuel tank; cabin air filter cleaned; AGM battery (\$400); 12-foot aluminum ramp—new, unused; aluminum driver's-side steps (These aluminum items reduce the weight of truck); lubrication of all the U-joints, ball joints, tie rod ends, clutch throw-out bearing, etc.; I sanded the oak floor and coated it with the entire gallon of high-quality polyurethane—2 1/2 coats. I changed the brake fluid with the synthetic type (DOT-3) and the transmission and differential oil with synthetic oil—21 liters. The current Virginia state safety inspection (expires 8-'24). Included are about 4 dozen full-size, quilted furniture pads, and several and dollies. Only 3 photos are permitted here; phone me for more photos. Tempe Otto 678-508-0236

Price: \$38,000.00

Phone Number: (703) 933-7000

Person to ask for: Richard or Tempe
